Welcome to Royal Leerdam

At Royal Leerdam we are dedicated to creating enjoyable glassware for every occasion and every moment in the most sustainable way. It's at the heart of everything we do and has been for almost 150 years. Whether it's for a dinner party with friends or family or enjoying a private moment of relaxation, our fine glassware will give the ultimate drinking pleasure.

Our love for beautiful, playful and functional glassware can be seen in our versatile collection of wine glasses, tumblers, cocktail glasses and homeware products made of glass. No matter what the customer's taste is, or what the occasion is, we have the right glassware. From classic, modern to romantic or playful designs, you will be able to find it in our collection.

One of the latest developments is the updated stemware section. In this chapter you will find wine and champagne glasses that can be classified as stylish and contemporary, like for example the new Alina range. These lightweighted glasses look very elegant and refined, showing their shape in beautiful boxes with an open corner. With the same trusted quality of Royal Leerdam you can find here our daily classics. These are wine glasses with classic bowl shapes at an affordable price point. The new Vivance range is a great example of a daily classic series.

Another beautiful addition to the collection is the beverage range Halo, one of the favourites in our tumbler collection. These elegant and refined tumblers feature vertical lines which are visible and tangible from the outside. Starting from the bottom, short lines are alternated with long lines providing extra grip and adding extra flair to these tumblers.

Decanters and Carafes

This chapter shows a variety of decanters and carafes. Decanters are specifically used to hold wine and the primary function is to store and serve wine and allow the wine to breathe. Whereas carafes are used more commonly to hold any kind of liquid ranging from water, juice and wine. The shape of a carafe doesn't change the taste of its contents. Discover our extensive range of carafes, some of them combined in a pretty combination box with matching tumblers and/or with a cork lid.

Our well-known carafe shape is now also available with optics: Serene! In the Serene combination box the carafe is combined with 4 tumblers, all containing fine optical lines.

Desserts

Next to stemware and beverageware, we offer a delicious desserts concept called Sweet Temptations. The photography used on the packaging looks very appetizing and will for sure attract impulse buyers. The tall glass is in particular very suitable for ice creams and milkshakes, whereas the two bowls can be used for different kind of desserts. One of them has a conical design and looks quite modern, whereas the other shape has a vintage feel and is more elegant.

Sweet Temptations

Attention to all food lovers! These compelling designs will help you present your amuses and desserts in the most attractive way. Your favorite prawn cocktail, tomato soup or homemade ice cream... They all deserve an appetizing presentation. Enjoy!
